backs, or great fluttery wings. The grotesque computer virus notion that if she gave the impression of her friends, then she will be extra beautiful. So she made herself a disguise. The Very Ugly Bug yet her new dress made her even tastier seeking to the birds! whilst a chook swoops all the way down to gobble up the disguised gruesome bug, whatever unusual happens... the large scare made the very gruesome malicious program even uglier! So gruesome in fact, that the chicken was once scared away. The gruesome computer virus learns that simply being herself is the easiest defense. Liz Pichon's witty textual content and colourful paintings spotlight this tale approximately self-acceptance.

This e-book was once so lovable and endeared itself to me from the 1st page. The very gruesome computer virus admires the entire different insects and the explanations of why they're made the way in which they're with tiny eyes against her giant googly eyes, their gentle backs against her bushy again and their wings to fly into the sky. She makes a decision that she desires to have skills like them to prevent the birds as well, as she can not seem to determine what makes her so special. Her abilities are quickly printed notwithstanding while a fowl flies in for a delectable The Very Ugly Bug lunch. yum yum! This ebook is full of humorous daring images within the brightest eye catching colours. the kids in my classification cherished this publication and I've needed to promise that we are going to learn it back tomorrow. :0) I additionally enjoyed the sophisticated message of ways everyone seems to be diverse and has traits that cause them to special.
